McDonald's New " McNuggets Purity " Campaign Emphasizes on the Purity and Quality of Chicken

McNuggets are known to be McDonalds best product and fans' favorite, where customers would order it either as a meal or as an add on and mothers who would request it as a preferable choice for their children's Happy Meal.

As part of McDonald's keenness to provide the finest products that comply with local and international quality standards, it has recently launched an educational campaign in which it confirms the purity and quality of its nuggets. The campaign emphasizes that McDonald's Mc Nuggets are free from any preservatives, flavors or artificial colors, and are without any hormones or antibiotics, instead they are made of 100% halal white chicken and cooked using a blend of sunflower and canola vegetable oil.
