

Terms and Conditions and Privacy Notice of the McDonald's FIFA World Cup™ 2026 In-App Game [Hungary] (hereinafter: the "Game Rules")

1. Introduction and General Terms

1. Progress Promotion Kft. (registered office: 1027 Budapest, Bem József utca 1/B, tax number: 12824256-2-41, contact: info@hu.mcd.com) (hereinafter: the "Organizer") organizes an online game under the name "McDonald's FIFA World Cup™ 2026" (hereinafter: the "Game"). The Game is available in the McDonald's mobile application (hereinafter: the "Application"), which can be downloaded free of charge from the [Google Play Store](#) for Android-based mobile phones and from the [App Store](#) for iOS-based mobile phones. Further technical information required for the use of the Application is available under Section 8/5. These present Rules are available in the Application and on the following website: <https://www.mcdonalds.com/hu/hu-hu/FIFA-VB-menu-game-termsandconditions>

2. These Game Rules define the conditions under which participation in the Game is possible and supplement the Application's Terms of Use. If any issue is not regulated by these Game Rules or the Application's Terms of Use, the relevant provisions of applicable law shall apply. Participation in the Game is voluntary.

3. Only a natural person (hereinafter: the "Player") may participate in the Game who:

- has a registered user account in the Application and has accepted the Application's Terms of Use, available https://www.mcdonalds.com/content/dam/sites/hu/nfl/pdf/A--Terms-of-Use_EN_20260219.pdf
- has expressly accepted these Game Rules required for participation in the Game within the Application in advance; and
- complies with all conditions set out in these Game Rules.

4. By accepting these Game Rules, the Player acknowledges that the content, performance, message and data transmission, as well as response speed of the Game's technical infrastructure depend on the serving technology, and may therefore be adversely affected by factors beyond the Organizer's control, such as (but not limited to) connection errors, server performance, network load, network congestion, coverage, and the maintenance of a secure network connection. The Organizer excludes all liability arising from the circumstances described in this paragraph.

2. Duration of the Game

The Game is available **from 10:30 on 9 June 2026 until 23:59:59 on 20 July 2026** within the Application.

3. User Account-Related Conditions

1. User account requirement:

Participation in the Game is strictly limited to users with a registered and active user account in the Application.

2. One user account rule:

Each Player may participate in the Game using one (1) user account only. In the event of an attempt to use multiple user accounts for the same user, the Organizer may exclude the Player from the Game.

3. Security:

The Player is responsible for maintaining the security of the device used for participation in the Game and for the account login details of the user account.

4. Game Mechanics and Skill-Based Play

1. The Player may join the Game by clicking on the promotional banner available on the Application's home screen and then clicking the **"Go to the Game"** button on the page that appears, following the express acceptance of the Game Rules.

2. Core Game

This in-Application Game is skill-based, in which Players shoot a virtual ball on a football field using touchscreen controls toward a designated target area in order to reach the predefined score required for level progression and to thereby obtain a coupon offer. The target score — and thus the difficulty level of the Game — increases proportionally with the successful completion of levels: the higher the level reached by the Player, the more points are required to obtain the given daily coupon offer. The Game's current daily level increases by one each day. However, the Game's current daily level does not necessarily correspond to the Player's current level. Depending on how frequently the Player uses the Game, the Player's current level may be lower than, or equal to, the Game's current daily level. For example: if a Player joins only on Day 5, the Player's level will be zero (0), while the Game's level will be the fifth (5th) level. Consequently, the number of levels that can be completed by the Player may be five or fewer; however, the obtainable coupon offer will exclusively be the Day 5 coupon offer (i.e. the coupon for 13 June) specified in Annex A, even if the Player decides to complete all available levels at once. Coupon offers obtainable on Days 1–4 cannot be obtained retroactively, even if the skipped levels are completed later. A total of 42 Game levels may be completed during the Game, meaning that a maximum of 42 coupon offers may be obtained. If the Player reaches the score required for the next level progression, the Player becomes entitled to obtain (activate) one of the selectable coupon offers for the given day. However, if the Player does not claim (activate) any of the selectable coupon offers (by closing the Application or returning to the main menu) and continues playing until exceeding the Game's current daily level without claiming a coupon offer at any point, the opportunity to claim the coupon offer for that day is irrevocably lost.

3. Daily Challenges During the Game period, **one mini-game is available each day**, selected from a daily rotation of four mini-game subtypes ("Keepy Uppy", "Where's Grimace?", "Stadium Delivery", and "Halftime Chef") and their various versions (a total of 42 different mini-games). By successfully completing the mini-games, Players may obtain various bonus abilities in the form of so-called "McNuggets® Buddies", which facilitate scoring points in the Core Game. By default, during the Game period the Player may attempt to complete the mini-game available on that day (the "Daily Challenge") an unlimited number of times, but only on the given day. Deviation from this rule in respect of unsuccessfully completed or missed Daily Challenges is possible

exclusively by using loyalty points previously earned in the MyMeki loyalty program, in accordance with the provisions set out in Section 5 of these Game Rules.

4. Outcome of the Game: The outcome of the Game is determined exclusively by the individual skill of the Player (timing, direction, force, using the Player's device touchscreen). Accordingly, the game experience and level progression (and thus obtaining one of the selectable coupon offers) may vary from Player to Player. Obtaining McNuggets® Friends is recommended, as without them it is not possible to reach the point thresholds required for higher levels. The Game does not use a random number generator (RNG) and does not contain any element of chance.

5. McNuggets® Buddies & Loyalty Point Redemption

1. Collecting: Players may attempt to complete the current Daily Challenge multiple times on the given day and may collect a maximum of one (1) unique McNuggets® Friend per day, i.e. a total of 42 unique McNuggets® Buddies during the Game period, by completing Daily Challenges.

2. Missed Days: A Player:

- who is a member of the **MyMeki loyalty program** and is logged into the loyalty program in the Application; and
- who terminated their MyMeki loyalty program membership less than two (2) years ago, and at the time of termination had at least ten (10) loyalty points archived,

may, in exchange for redeeming ten (10) MyMeki loyalty points, attempt again to complete a missed or previously unsuccessfully completed Daily Challenge in order to unlock the missed McNuggets® Friend and its Core Game abilities, in the event of a successful game outcome. During the Game period, any number of missed Daily Challenges may be recovered per day, subject to the availability of loyalty points or archived loyalty points, in accordance with this section. If the Player does not have a sufficient number of loyalty points (i.e. at least ten (10)) available in their balance, no further missed challenges may be unlocked until the minimum required point balance is restored.

The Player referred to under point (b) expressly agrees, by accepting these Game Rules, that their loyalty points stored for archival purposes following termination of their MyMeki membership may be used as described herein.

3. Finality: Once loyalty points have been used (transacted) by the Player, the transaction is final; there is no possibility to reverse the transaction or refund the loyalty points.

6. Obtainable Coupon Offers

1. Player's Choice: In the event of a successful game round, if the Player exceeds the score required for progression to the next level in the Core Game, the Player may select one (1) coupon offer from two (2) daily selectable coupon offers available in the Application in the form of a McDonald's coupon, as detailed in Annex A. The coupon offers consist of product bundles available for purchase at a discounted price (the

redemption conditions are set out in detail in the applicable Coupon Terms and Conditions). A maximum of one (1) coupon offer per day may be obtained. Upon acceptance, the coupon offer is added to the Player's user account in the Application among the other currently available coupons and may be redeemed until 23:59 on the sixth (6th) day following acceptance (activation). Accordingly, the validity period of a coupon offer may exceed the duration of the Game by up to six (6) days; however, the actual validity of each coupon offer is governed in all cases by the applicable Coupon Terms and Conditions. Upon expiry, the coupon offer disappears.

2. Consolation Coupon Offer: In the event of an unsuccessful game round, after at least three (3) unsuccessful level-up attempts in a given day, and provided that the Player's current daily level does not exceed the Game's current daily level, the Player becomes entitled to a consolation coupon offer in accordance with Annex A. Acceptance of the consolation coupon offer is optional. The Player may choose to continue attempting to obtain the selectable coupon offer for that day; however, if the Player accepts the consolation coupon offer, they are no longer entitled to any further coupon offer on that day, even if they subsequently reach the score required for the next level.

3. Limitation: Each Player is entitled to obtain a maximum of one (1) coupon offer per day, which may be either: one (1) selectable coupon offer following a successful game round, or one (1) consolation coupon offer after three unsuccessful attempts. The coupon offers listed in Annex A may be obtained exclusively on the day assigned to them.

In order to obtain all forty-two (42) coupon offers, it is necessary to play every day and either complete the daily score requirement or claim the consolation coupon after three unsuccessful attempts. If a Player skips one or more days (whether by joining the Game later or by failing to complete the required score on a given day), previously missed levels may be completed retroactively, and multiple missed levels may even be completed on a single day. However, even in such cases, the Player may obtain only one (1) coupon offer per day, namely the coupon assigned to that calendar day as specified in Annex A, regardless of which level completion triggers the entitlement. It is not possible to complete levels exceeding the Game's current daily level. After reaching the daily level, the Player may continue playing; however, no additional coupon offer may be obtained, even if the score threshold is exceeded again.

4. Delivery of Coupon Offers: Selectable and/or consolation coupon offers are delivered by the Organizer to the entitled Player in the form of digital coupons, by adding them to the Player's user account. Digital coupons may not be exchanged for cash or any alternative, in whole or in part, and may not be transferred, shared, sold, resold, or gifted. Each coupon offer may be redeemed only in accordance with the relevant coupon description and coupon terms and conditions, and within its validity period, in compliance with the McDonald's Application Terms of Use.

7. Privacy Notice

9. General Provisions

1. Any Obtainable Coupon Offer allocated within the Game shall be deemed null and void in all respects if, in the Organizer's well-founded opinion, it: (a) has been generated or issued as a result of a technical error, malfunction, or system outage; or (b) has been corrupted, duplicated, or otherwise issued invalidly within the framework of the Game; or (c) has been obtained through fraudulent, automated, or unauthorized activity, including any attempt to manipulate gameplay, results, or the operation of the Game, as well as manipulation of device settings, software, or network conditions; or (d) was obtained in breach of these Game Rules.

2. If an Obtainable Coupon Offer loses its validity due to an error attributable to the Organizer or a person acting on its behalf, the Player's sole remedy shall be the replacement of the Obtainable Coupon Offer.

- d) commits or has committed fraud, falsification, or suspicious activity in any promotion or Game organized by the Organizer; or
- e) is subject to repeated suspicion of fraud or falsification,

then the Organizer shall be entitled, at its reasonable discretion, to:

- (i) withhold, delete, or revoke the Obtainable Coupon Offer awarded to the respective Player; and/or
- (ii) suspend the Player's participation in the Game or exclude the Player from the Game (including retroactive effect), with the result that any participation, Obtainable Coupon Offer, or entitlement may be deemed invalid and disregarded without liability.

Any suspected fraud, falsification, or suspicious activity is examined and filtered by the Organizer in two stages: first by means of information technology tools, and second through administrative intervention.

The Organizer does not accept complaints regarding result deletions or exclusions

carried out due to suspected fraud or falsification.

The Organizer defines and applies suspicious activity and its criteria at its own discretion. In particular, activities that are unlawful or carried out in bad faith may be classified as suspicious activity.
