

Make your own paper cup telephone!

Adults, help your little one create their own cup phone!
Watch our 'How To' video together to get started. **Adult supervision required.**

Materials:

- 2 Paper cups
- Kids' paints
- String
- Round edged scissors
- Pen
- Paint brushes

Instructions:

1. Assist your little one to cut a piece of string, around 60cm long.
2. Paint the cups a plain colour and let them dry.
3. Help your child to carefully poke a small hole in the bottom of each cup using a pen or pencil.
4. Thread the string through each cup and tie knots at each end to stop it pulling through the cup.
5. Now decorate the paper cups using child-safe paints.
6. Move into position, with you and your child pulling the string tight (making sure it isn't touching anything else).
7. One person talks into the cup while the other puts the cup to their ear and listens.

Tip: experiment with different string lengths!
