

# Tomato Life Cycle

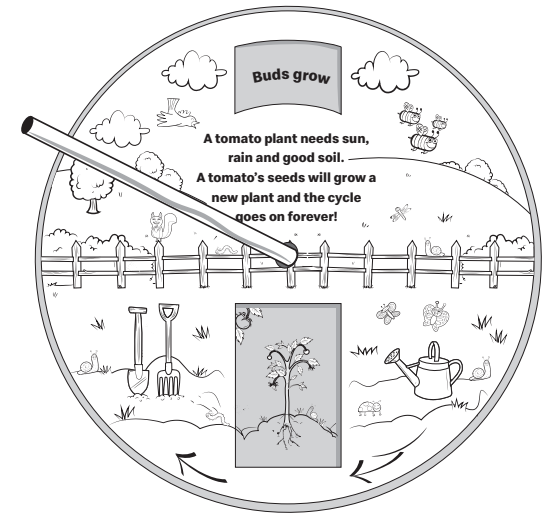

Adult supervision required

**A tomato plant needs sun,  
rain and good soil.**

**A tomato's seeds will grow a  
new plant and the cycle  
goes on forever!**

- 1 Ask an adult to use scissors to cut along the dotted lines around all the shapes
- 2 Place a paper straw through the middle and add the bottom circle on the next page
- 3 Turn the bottom circle to reveal the life cycle of a tomato!

**Buds grow**

**A tomato plant needs sun,  
rain and good soil.  
A tomato's seeds will grow a  
new plant and the cycle  
goes on forever!**
